The Apreamare 38 Comfort is one of the most successful Apreamare models of the past years. She is appreciated for her high build quality, excellent seagoing capacity and luxury (Italian) design. All its spaces are very well rationalized. The Apreamare design inspiration comes from the old Gozzo style fisherman boats from the Sorrento area. Apreamare 38 Comfort offers its unique qualities as a daycruiser as well as during short and longer stays on board, both at sea or inland.

Compared to the previous version, the Apreamare 38 New Comfort layout features significant changes that guarantee greater liveability in the below deck areas and even more comfort on deck. The key point remains the refined relation between the interior and exterior. With many extra windows and a high gloss mahogany finish of the quality woodwork, the Apreamare 38 New Comfort offers a luxurious and airy ambiance inside.

The exterior, famous for its spacious and level deck layout, now offers better seating and extra storage options. The Apreamare 38 New Comfort is an elegant, practical, nautical and luminous boat, in classic Apreamare style. She is able to satisfy the owner and to reach a top speed of approximately 28 knots.

Part-exchange considered.

Full specification available on request.
