SKIPPER DESIRE 42 TENDER:

Desire 42 Tender is a sports version which combines an ultra-high performance hull with a luxurious deck. The aggressive style, the aerodynamic line, and the fast hull are the characteristics which make this version a sport one.

So here is the Skipper 42 Desire Tender .

HULL DESIGN:

A really good speedboat must be seaworthy and this is mainly due to its hull. BSK Marine is based on this theory, so it designs and manufactures boats, which offer excellent sailing, great performance and low fuel consumption.

Skipper 42 Desire is equipped with a hull, which is the product of many years of studies and testing. Some of her characteristics are a consumption rate of 2.0- 2.5lt per mile and a speed of 50 – 70 knots, depending on the engine combined (2 * 300Hp min or 2 * 650Hp max).
