Coding for Charter

Receive a healthy contribution towards coding a yacht for charter when you are an official sea-school or charter company.

Manufacturer Provided Description

A big cockpit with two wheels and a comfortable layout under deck with three cabins are only two features of the new CRUISER 34 of BAVARIA YACHTS. Below deck there is space for six people in three generous cabins. Giving this fact the CRUISER 34 offers an unbelievable space in her boat size. The dinner preparation is pure joy in the L-shaped galley. Quality

Isophthalic acid (IPA) resins in the outer layers, used during the laminating process, ensure that the hull of a CRUISER 34 is of the highest quality. These offer effective protection against osmosis and thus promote longevity of the CRUISER 34. The hull and deck of the CRUISER 34 is formed by sandwich construction with foam inserts. Where fittings are mounted, the deck is reinforced with aluminium sheets. In the so-called "marrying" process shortly before the end of production, the deck and hull are screwed and glued together for extreme stability and high durability. The perfect view of sails, course and crew is not only an important safety factor, it also increases the comfort and pleasure of sailing. From the two steering wheels of the CRUISER 34 the helmsman has this optimum overview. It was important to the designers of BAVARIA YACHTS to form the seats ergonomically, so a long day at sea is a pleasure. The second advantage: the cockpit offers a lot of space from the bathing platform up to the companionway. The trimming of the sails is an easy experience for the crew of the CRUISER 34. The main sheet is led on the roof, the fore sail is trimmed via winches from the cockpit, which is all conveniently within reach of the helmsman. Below deck there is space for six people in three generous cabins. Giving this fact the CRUISER 34 offers an unbelievable space in her boat size. The dinner preparation is pure joy in the L-shaped galley. Sink, cooker and cool box are adapted to the needs of a crew of six people, also the storage in all cabins and the generous size of the bathroom with shower. The lines of the CRUISER 34 come from FARR YACHT DESIGN in the US like all sailing yachts from BAVARIA YACHTS do. The layout under and on deck of the CRUISER 34 comes from the experienced developing team of BAVARIA YACHTS and Design Unlimited in England.

Accommodation

THIS IS HOW GREAT SMALL CAN BE – THE BAVARIA CRUISER 34. We believe that even smaller yachts can be tremendous fun. With the CRUISER 34 we have succeeded in bringing together the most important aspects of sailing – sailing pleasure and spaciousness – in one boat. This yacht has excellent – and very safe – sailing characteristics. The XXL cockpit area is pleasantly commodious during sailing and in between. And below deck there is all the room you need for six people. The CRUISER 34 is the small, yet still very great BAVARIA. It comes in a 2- and a 3-cabin version with single or twin helm positions. For BAVARIA, attention to detail always means combining comfort and safety. For example, the cockpit layout with its two steering wheels ensures that the helmsman always has an unimpeded view of the sails, the course and the crew – for the utmost safety.

At the same time, all the modern conveniences are there. The cockpit offers plenty of space and free access from the bathing platform to its companionway. It is also a meeting place for social and entertainment activities. Gathered around the large cockpit table, everybody enjoys the time spent together during a cruise. No compromises below deck. Even in the smaller 2-cabin version of the CRUISER 34 you have all the amenities you need below deck for a cruise. A large, bright saloon – thanks to loads of natural light. A functional galley and a corner for the skipper to work and do planning. In short, a space with many well-conceived options. So typically BAVARIA. Like a terrace and a sailing workstation in one – that is the cockpit area on the BAVARIA CRUISER 34. With enough room for everything, it is equally suitable for relaxing during breaks at sea and in ports as well as for performing the job of sailing itself. With ergonomic cockpit seats that stave off fatigue even after several hours – and make relaxing even more relaxed.

Experience

EASY TO SAIL. EASY TO LIKE. THE CRUISER 34 WITH SINGLE STEERING WHEEL. Sailing is all about rest, relaxation and fun – with the right boat. With a pre-balanced rudder and a single large steering wheel (standard design), the BAVARIA CRUISER 34 is a very easy yacht to sail. Thanks to a highly economic layout and more efficient, state-of-the-art technology, captaining this yacht is a breeze. This is so that you can concentrate on just one thing – simply relaxing.

The CRUISER 34 is ideal for families – and cruising with friends. Or for just going out on your own sometimes. She has everything that characterizes a BAVARIA: quality, German engineering and attention to detail – for a great deal of fun.

Interior

Attention to detail is simply good old-fashioned craftsmanship – at least here at BAVARIA, where we use only the best materials. Everything, from the solid wood battens to the entire interior, is made in our own workshop. Each wooden part receives up to six layers of varnish on its own varnish production line. Where? Right here in our shipyard, in the peaceful city of Giebelstadt. That means: Made in Germany right in the heart of the country. We would love you to come and visit us.
