Many Yacht owners will only consider a Flybridge, with the high helm position providing the ultimate place for open visibility and control especially when manoeuvring in confined spaces. The increased beam at the waterline of the Caribbean 52 offered superyacht performance which when coupled with masses of on-board space produced an incredible Yacht. When you step into the large saloon it lends itself to entertaining or relaxing and provides excellent visibility from the main helm position all due to the advantageous benefits of the Flybridge. There is ample sleeping accommodation onboard and the owners cabin has a full ensuite shower room and the day head services the 2 separate guest twins. The well equipped galley adjoins another below decks room which was adaptable as a 3rd guest cabin or Crew cabin alternately as a utility room. The Caribbean 52 provided the best of all possible boating experiences: open air cruising, lots of areas to enjoy lounging in the sun, a comfortable spacious rear cockpit, open spacious accommodation and the benefits of a 400 nautical miles cruising range. Layout/Interior

3 cabins sleeping a total of 6 people onboard. A forward Master Cabin with Ensuite and 2 twin Cabins midships with a shared Ensuite. Adjoining the Galley there is the Utility Room.
