Walker Bay 8ft and Yellow Breeze tubes - only £1,098 inc VAT

The 275 Rigid Inflatable Dinghy (RID) light (Breeze) is the ideal boat for those who want the versatility, durability, cockpit space and lightweight features of the Walker Bay 8, and want more stability in an affordable package. This is a single chamber tube with a light weight construction. Row, motor or sail the 'RID' does it all, while adding safety and stability to the experience.

The 275 RID lightweight inflatable dinghy is a combination of the WB8 Boat and the RID 275 Light Tube Kit. The boat and tube kit are purchased separately but our deal price for them as a package is only £1,098.

Boat and tubes weigh only 40kg, and Walker Bay dinghies come with a built in transom wheel for easy manoeuvrability.

Unsinkable with the Breeze buoyancy tubes fitted.
