- Commercial Ribs
- 5 m/16 ft

The ZAR mini RIB 16 Heavy Duty is designed for demanding duties where ultimate durability and longevity is required. Standard specification includes 4mm Aluminium construction with CSM Hypalon tubes and a heavy duty rubbing strip.

The deep-vee hull design with a high bow and large diameter tubes makes the RIB 16 HD suitable for applications where good seakeeping is essential, whilst the double helm console with leaning bar and standard A-Frame ensure practicality and flexible usage.

With a maximum engine capacity of up to 100 HP, the RIB 16 HD is capable of delivering exceptional performance, whilst the Aluminium construction provides class leading durability without adding excess weight.

Available in a purposeful orange hull/grey tubes colour scheme as standard, with alternative colours possible for multiple unit purchases.
