Brokers Comments

This fantastic boat provides everything you could want in a safe and comfortable semi displacement cruiser & ouzes with solid craftsmanship & sophistication. With its huge Master Cabin & Ensuite, two large further cabins and second heads all with full height headroom, as well as its large saloon area, this boat feels much bigger than her length would suggest. The wonderful teak wood interior, coupled with its expansive covered aft deck, fore deck & flybridge, means that this boat lends itself to socialising & entertaining with friends, or as a very safe and comfortable family cruiser. Her previous owners have maintained her well & have upgraded her. All these features combined with her 5KVA generator, full navigation & electronics package and the larger 300 HP Diesel Engines mean that she is very well equipped for cruising whatever the weather & time of year. Such is her condition and level of equipment that she could easily be considered suitable as a liveaboard & with her Category A rating, it is a boat that is very capable in turbulent seas & ideal for longer distance cruising.

The Tarquin Boat Company (Trader Boats) are known for building solid reliable boats using quality craftsmanship. This 47 Sundeck is no exception and offers classic styling, generous accommodation and comfortable performance. This particular boat is in good condition and she is loaded with all the features and extras you could wish for and offers exceptional value for money. Inspection of this boat is highly recommended and she is currently lying in Southampton, and is available for viewings through Aspire Boat Sales Ltd.
