- 2013
- 18.35 m/60 ft

Remarkably big for her length, The Manhattan 53 presents a refreshing perspective on Flybridge motor yachting at this size. It is not just about styling, this model runs deep to the core, delivering even more practical purpose to owner and guest. She gives you delightful cruising with her twin Caterpillar C12 715hp engines. This Manhattan 53 reached up to 250 nautical miles with a 20 knot cruising speed.

Layout/Interior

Step through the wide, slide-opening doorway into the high ceilinged, daylight-bright saloon and this Manhattan 53 reveals new found space for specific function. Dining and reclining around one convertible table, forward of the sitting room zone offers a spacious, separate raised dining area and the helm station to starboard has a seating for two.

Quite exceptional for a performance 53ft motor yacht, as is the headroom and space in the galley and guest cabins below.

The smaller engine and drive systems have also released more accommodation length, and the resulting, 3 grander en suite cabins now include a much enlarged third cabin with two single beds in place of previous up-and-over berth models. Accessed from the hydraulic bathing/tender platform a bigger crew cabin with one berth.

Additional Extras

Crew Cabin Fit out installation

Floor Coverings – Carpets White – Velvet
